Four weeks ago Fred Bjorklund, a senior student, was frightfully burned by an explosion of gas in a tank used in making experiments in the chemical laboratory. exact cause of the accident has not been discovered, but it is supposed the wrong mixture was used. At first it was thought he would surely die. His face, chest, arms and back were all badly burned. The family of Chester Rowe, consisting of wife and two children, has just started for the City of Mexico to join Rowe in retirement. He was the treasurer of Poweshiek county and was found short several thousand dollars. He fled to Mexico and after several years was found in the City of Mexico. It was decided he could not be extradited, though there was much correspondence in relation to the case, and the most that could be done with him was to convict him under the Mexican law for bringing stolen property into the country. This was done and he served a short sentence. Now he has located in business in a small town south of the City of Mexico. where he is the only English-speaking person there, and his family has gone to join him. to stop such heavy men when the interference forms so perfectly and moves so quickly as did Wisconsin's. Nebraska will never be able to score against such a team as we played today. While the Cornhuskers have a better defense than ours I do not believe they can do any better offensive work than we did today.

While Wisconsin was able to gain almost at will against the visitors there were times early in the game when the rooters were scared lest Kansas should score. The best playing of the game, so far as Kansas was concerned, was done in the first of the first half, when the visitors by continuous and steady gains through Wisconsin's line carried the bail down the field fifty-five yards. Then it was that the cardinal rooters were frightened, but luck was with the Badgers.

Just when it seemed that nothing could prevent Kansas from scoring, some one tumbled and a Wisconsin man fell on the bail. Then Wisconsin began again its fast plays and swept the visitors out of the path as if they had been so many children. The best work for Kansas was done by Jenkinson, Buzzi and Brummage. Kansas appeared to have taken a hrace after the second touchdown, when it carried the sphere seventy yards over the field, only to lose on a fumble. Lineup:

SULLIVAN THROWS LOCH TWICE

Takes Second Fall in Four Minutes but Requires Thirty for First.

Joe Sullivan defeated Pete Loch in a wrestling match at the Trocadero last night in two straight falls. The match was for \$100 and gate receipts.

Both men were greeted with hearty appleause as they came upon the stage. They weighed in about the same and both were in excellent condition. Betting was even.

Referee Dan Baldwin called time and the men went at it. While there were no sensational plays made, it was a good, hardfought contest, and was anybody's fight until the finish. A great deal of strength and science was displayed by both. Sullivan won the first fall in thirty minutes.

In the second Bullivan appeared more confident and was more aggressive. He rushed things from the start and landed his man in four minutes.

The winner is a former fireman and this was his initial wrestling match. From the account he gave of himself sports say he will do clever things in the wrestling line.

Loch has been on the mat several years and this was his first defeat. An immense crowd was present.
